GEL COCKROACH BAIT

DIRECTIONS FOR USE:

RESTRAINTS

- DO NOT apply to a ground surface which is wet or to areas that are washed.
- DO NOT allow product to directly contact humans, pets, exposed food, food preparation areas or food utensils.

SITUATION

- Commercial, Industrial and Residential Buildings.

PEST

- German and American cockroaches.

RATE

- Apply as a 3 mm to 6 mm diameter bait spot. Use the larger bait spot for American cockroaches. Apply 12-24 bait spots for a 30 m² treatment area for heavy infestations and 4-6 bait spots for a 30 m² treatment area for light infestations.

CRITICAL COMMENTS

- Inspect premises thoroughly and locate all cockroach harbourages.
- Place Blattathor bait spots as close as possible to cockroach harbourages.
- Place bait spots into cracks and crevices away from where they are likely to be removed by cleaning programs.
- When placing baits remember that the label refers to the full surface area that the cockroaches are likely to traverse e.g. in a kitchen allow for the full surface area of each bench, cupboard etc.
- Good hygiene is essential in any pest management situation. Encourage the removal of other food materials.
- Do not use chemical sprays near baits.
- In areas of poor sanitation use more bait placements.

RETREATMENT:

In areas of high activity the bait may be consumed and further placements needed. Schedule a second inspection about a month after the initial treatment. Retreatments only need to be applied in areas where cockroaches remain or are likely to enter a premises. Blattathor is very stable; it does not harden or lose its attractiveness to cockroaches. Only reapply baits when the original bait has been consumed.

**NOT TO BE USED FOR ANY PURPOSE,
OR IN ANY MANNER, CONTRARY TO
THIS LABEL UNLESS AUTHORISED
UNDER APPROPRIATE LEGISLATION**

PRECAUTION: Should not be used in areas accessible to children.

PROTECTION OF LIVESTOCK, WILDLIFE AND OTHERS

Dangerous to fish. DO NOT contaminate streams, rivers or waterways with the chemical or used containers. DO NOT place baits in locations which are accessible to domestic animals, livestock or birds.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.

Do not dispose of undiluted chemicals on site. Dispose of used containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Poisonous if swallowed. May irritate the eyes and skin. Avoid contact with eyes and skin. Wash hands after use.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone: Australia 131126. If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet.

NOTICE

Ensystex Australasia Pty Ltd (Ensystex) warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with Directions for Use under normal conditions of use. No warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of the product contrary to label instructions or under off-label permits not endorsed by Ensystex, or under abnormal conditions.
